Storyboard Sequence (Entrants Edition)

Logging In And Signing Up As An Entrant

clicks sign up

The 'Create Account' form. It has a title 'Create Account' at the top. Below it are four input fields: 'Personal Name (required)', 'Email (required)', 'Phone Number (optional)', and 'Password (required)'. There is a dropdown menu labeled 'Entrant'. At the bottom of the form is a purple button labeled 'Create Account'. A 'Back' button is visible at the very bottom of the screen.

created new entrant account

clicks login

The 'Login' form. It has two input fields: 'Email' and 'Password'. Below the fields is a purple button labeled 'Login'.

Storyboard Sequence

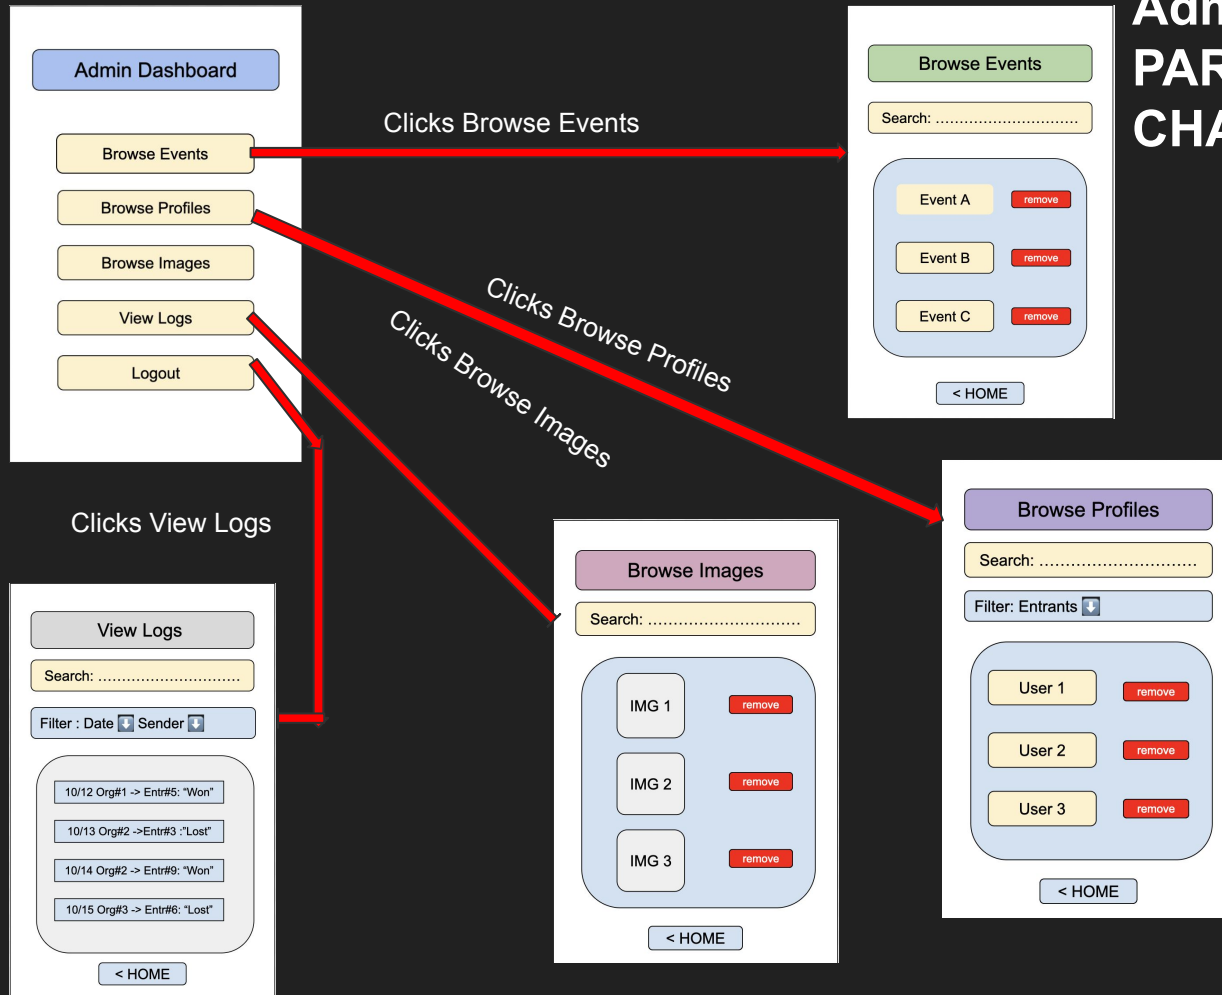

(Admin Edition)

Logging In As An Admin

Admin Screen Flow (NOTE: PART 2 VER SINCE NO REAL CHANGES DURING PART 3)

The **Admin Dashboard** serves as the main hub for all management tasks — events, profiles, images, and logs. Each button opens a specific screen while the **Home** button always returns the admin to the dashboard.

- **Browse Events:** View all active events, search by name or date, and remove as needed. Can later support editing, sorting, and event creation.
- **Browse Profiles:** Manage user profiles with search and filter tools. Allows user removal; future updates may include view/edit options and role details.
- **Browse Images:** Access and manage uploaded images. Supports search and removal; can be expanded for previews, metadata, and bulk actions.
- **View Logs:** Displays system activity with search and filter by date or sender. Read-only for auditing; can later support export and log-type filtering.
- **Logout:** Ensures secure session termination after admin tasks.
